Qlight

Qlight

Gives you a
Brighter
Future

Qlight Gives You a Brighter Future!

Qlight has been contributed to an industrial safety and efficiency by producing several audible/ visual signaling devices and industrial LED lights since its establishment in 1986. Our technology and quality are highly reputable among various industries for example semiconductor manufacturing equipment, automobile industry, unmanned automation facility, steel production facility, shipbuilding industry, offshore plant, specialized unit for petrochemical industry based on diverse technology patents and core technologies such as LED light source, heat radiation technology, explosion proof design. Our established local corporations in South Korea and China, sales branches in the United States, Japan, Vietnam, and a global service network provides a distribution and sales system servicing over 80 countries that help Qlight reinforces industrial fields all over the world.

Qlight is a representative of signaling device in Korea.

Qlight has been striving to accomplish our mission to provide visual and audible status indicating systems and solutions to enhance our customer's work safety and efficiency for the last three decades.
As a market leader, Qlight is going to accomplish our responsibility by introducing state of the art equipment and unmanned facilities.

1986 - 1995

Business foundation and consolidation

- 1986 Established Qlight
- 1993 Nominated for developing domestic explosion proof warning lights by Korean Ministry of Science & Technology

1996 - 2005

Growing as a signal transmission device specialist

- 2001 Established Shanghai Qlight Electronic Co., Ltd. in China

- 2004 ISO 9001:2000 certificates acquired

2006 - 2017

Mission device specialist A great leap forward & business reconstruction

- 2010 Established R&D Center
- 2011 Selected as a venture company
- 2011 Selected as an INNO-BIZ firm which is an innovative tech company
- 2014 Selected as a promising export company by Small and Medium Business Administration(SMBA)
- 2014 Established the Qlight USA, Inc. in San Jose, CA.
- 2016 The second headquarter factory built

History of Change & Innovation

2018 to Present

New engines for growth

2019 Established Qidong factory

2019 Selected as a family friendly
company by Ministry of
Gender Equality and Family

2020 Selected as a small giants
company by Small and
Medium Business Admin-
istration(SMBA)

2021 Selected as a youth-friendly
small giants company

2023 Selected as the best reading
management company
by the Ministry of Culture,
Sports and Tourism of Korea

The 2nd growth and globalization

Qlight, the best professional company

Leading the **improvement of industrial efficiency**

1 Aiming for the first-class

Aiming for the first-class specialized company to contribute industrial efficiency and safety of customer based on the core competency of System, Variety, and Hi-quality

35 Continuous growth for about 35 years

Based on a partnership-oriented corporate culture and sharing management, we have grown continuously for 35 years since our founding and are recognized for our quality and technology.

80 Global networks in 80 countries

Exporting to all over the world through global network spanning over 200 distribution channels in 80 countries and brightening industrial sites around the world

450 Multi-variety production

Satisfying various needs of customers through systematic customer-customized production system for over 450 products

Quick

Prompt customer satisfaction and real time enterprise(RTE)

Quality

Emphasis on product and service quality, workplace innovation and ethical management

Question

Problem oriented thinking and creative problem solving are based on achieving strategic task.

Qualified

The most suitable company that leads the innovation of signaling device technology and industrial efficiency improvement

Core Competency

System

Delicate mechanism of the work realizes shorter lead time by effectively managing over-all procedures such as purchasing, production, stock management, and distribution.

Broad-line

Customers are highly satisfied with Qlight products because we offer over 450 types of wide variety of product family with a systematic customized production system.

Supreme Quality

Qlight's technological capability and supremacy of quality are being recognized because of our strict technology standard and inspection system. We've obtained over 22 certificates such as IECEx, ATEX, NEPSI, CCS, CE, and UL. We've been expanding it in accordance with industrial demands.

How Qlight works

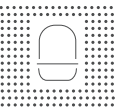

Waterproof and Dustproof Protection Structure

Comparing waterproof & dustproof protection structure

IP **6** **7**

IP rating _ Known as "Ingress Protection rating" indicated in two-digit code showing the amount of protection against solid and the liquid(IEC60529)

First Number Protection against solid	Second Number Protection against liquid
0  No protection	0  No protection
1  Protected against solid objects over 50mm, eg accidental touch by persons hands	1  Protection against vertically falling drops of water eg condensation
2  Protected against solid objects over 125mm, eg persons fingers	2  Protection against direct sprays of water up to 15° from the vertical
3  Protected against solid objects over 25mm (tools and wires)	3  Protected against direct sprays of water up to 60° from the vertical
4  Protected against solid objects over 1mm (tools, wires, and small wires)	4  Protection against water sprayed from all directions - limited ingress permitted
5  Protected against dust limited ingress (no harmful deposit)	5  Protected against low pressure jets of water from all directions - limited ingress
6  Totally protected against dust	6  Protected against temporary flooding of water, eg for use on ship decks - limited ingress permitted
	7  Protected against the effect of immersion between 15 cm and 1 m
	8  Protects against long periods of immersion under pressure

NEMA SIZE

National Electrical Manufacturers Associations standard for enclosure protection rating, NEMA1-6 and 11-13 type is applicable in Non-Hazardous Locations, NEMA 7-10 is applicable in Hazardous Locations

Type	Usage place	Environment	Protection rating
1	Indoor Use	Non-explosion proof	Intended for indoor use primarily to provide a degree of protection against limited amounts of falling dirt
2	Indoor Use	Non-explosion proof	Intended for indoor use primarily to provide a degree of protection against limited amounts of falling water and dirt
3	Outdoor Use	Non-explosion proof	Intended for outdoor use primarily to provide a degree of protection against rain, sleet, windblown dust; and damage from external ice formation
3R	Outdoor Use	Non-explosion proof	Intended for outdoor use primarily to provide a degree of protection against rain, sleet; and damage from external ice formation, and must have a drain hole
3S	Outdoor Use	Non-explosion proof	Intended for outdoor use primarily to provide a degree of protection against rain, sleet, windblown dust; and to provide for operation of external mechanisms when ice laden
4	Indoor/Outdoor Use	Non-explosion proof	Intended for indoor or outdoor use primarily to provide a degree of protection against windblown dust and rain, splashing water, hose directed water; and damage from external ice formation
4X		Non-explosion proof	Intended for indoor or outdoor use primarily to provide a degree of protection against corrosion, windblown dust and rain, splashing water, hose directed water; and damage from external ice formation
5	Indoor Use	Non-explosion proof	Intended for indoor use primary to provide
6	Indoor/Outdoor Use	Non-explosion proof	Intended for indoor or outdoor use primarily to provide a degree of protection against hose directed water, the entry of water during occasional temporary submersion at a limited depth; and damage from external ice formation
6P		Non-explosion proof	Intended for indoor or outdoor use primarily to provide a degree of protection against hose-directed water, the entry of water during prolonged submersion at a limited depth; and damage from external ice formation
7	Outdoor Use	Explosion proof	Intended for indoor use in locations classified as Class I, Groups A, B, C, or D, as defined in the NEC
8	Indoor/Outdoor Use	Explosion proof	Intended indoor or outdoor use in locations classified as Class I, Groups A, B, C, or D, as defined in the NEC
9	Indoor Use	Explosion proof	Intended for indoor use in locations classified as Class II, Groups E, F, and G, as defined in the NEC
10	Indoor/Outdoor Use	Explosion proof	Are constructed to meet the applicable requirements of the Mine Safety and Health Administration (MSHA)
11	Indoor Use	Non-explosion proof	Protection from the corrosive effects of liquids and gases by oil immersion
12	Indoor Use	Non-explosion proof	Intended for indoor use primarily to provide a degree of protection against circulating dust, falling dirt, and dripping non-corrosive liquids
12K	Indoor Use	Non-explosion proof	Intended knockouts are intended for indoor use primarily to provide a degree of protection against circulating dust, falling dirt, and dripping non corrosive liquids
13	Indoor Use	Non-explosion proof	Intended for indoor use primarily to provide a degree of protection against dust, spraying of water, oil, and non-corrosive coolant

NEMA Ratings and IP Ratings Equivalency Chart

The chart below is for comparison between two enclosure ratings It is only for reference and these two rating standards are not exactly converted

NEMA ENCLOSURE TYPE	IP ENCLOSURE TYPE
1	IP20
2	IP22
3	IP55
4	IP66
4X	IP66
6	IP67
12	IP54
13	IP54

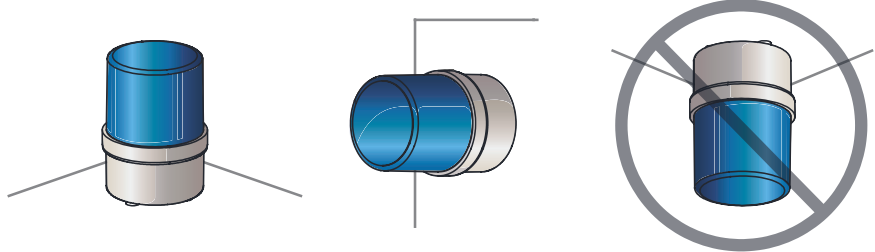

PRODUCT INSTALLATION DIRECTION

Install the product in accordance with the manual. otherwise, rainwater or moisture may penetrate into the product.

• BEACON/SIGNALING LIGHT

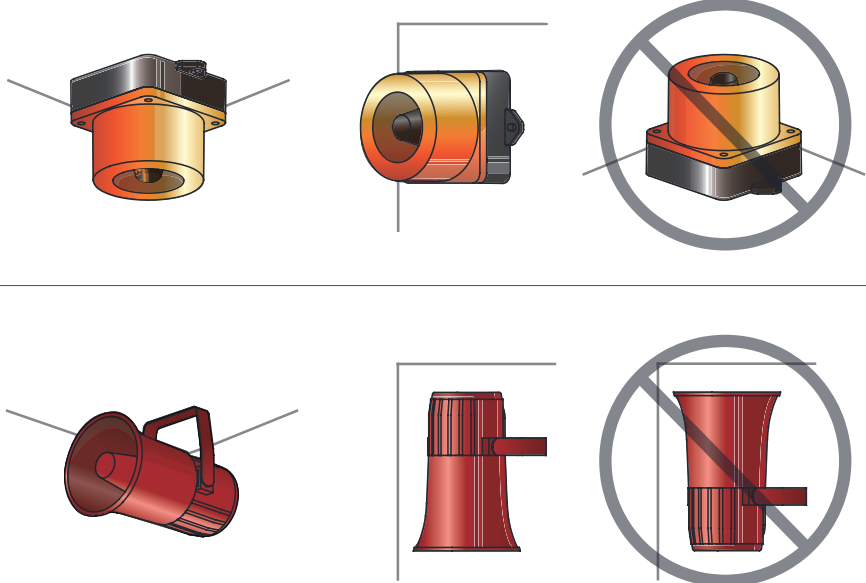

Power cord inlet part shall not be facing the sky.

※ For products with a protection rating of less than IPX4, please install it vertically.

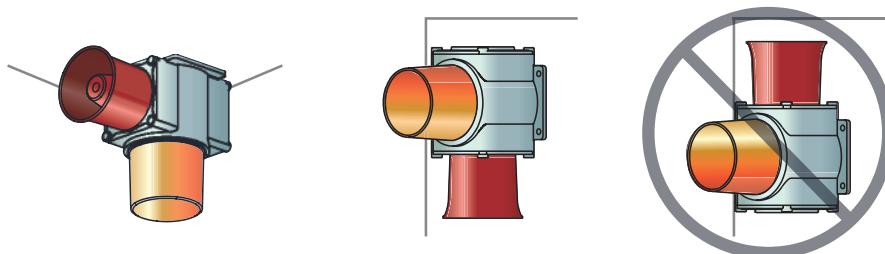

• ELECTRONIC SOUNDER /SIGNAL HORN

Sounder part shall not be facing the sky.

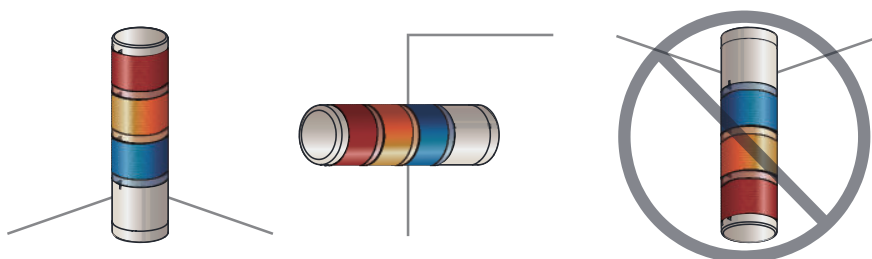

• **HEAVY-DUTY & EXPLOSION
PROOF SIGNALINGS**

Sounder part shall not be facing the sky.

• **SIGNAL TOWER LIGHTS**

Power cord inlet part shall not be facing the sky.

※ For products with a protection rating of less than IPX4, please install it vertically.

Icon Description

This catalogue helps users quickly identify the product's specifications and features by using several types of icons. If you understand the concept for each icon, you will find it easy to understand the catalogue information.

Light Source and Operating Mode Icons

Icon	Operating Mode	Icon	Operating Mode
	Bulb steady type		Bulb steady/flashing type
	Bulb revolving type		LED revolving type
	LED steady type		LED steady/flashing type
	LED simulated revolving type		LED strobe type
	Xenon lamp strobe type		

Acoustic Signal Icons

Icon	Siren	Icon	Siren
	Buzzer		Speaker
	Horn		Bell
	Motor siren		MP3
	Volume(dB)		

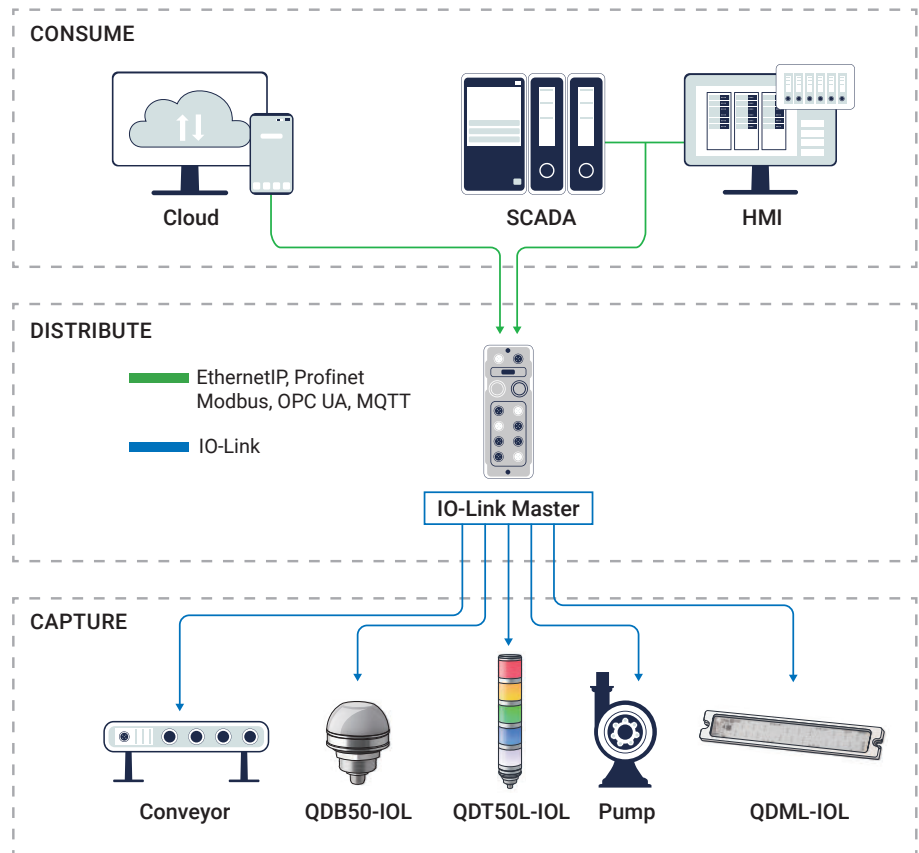

Specifications Icons

Icon	Specification	Icon	Specification
	Magnet type		Ambient operating temperature
	NPN type transistor		PNP type transistor
	IP rating		Wireless Network
	RoHS		

IO-Link Product

1. What is IO-Link

1) SERIAL TWO-WAY POINT-TO-POINT CONNECTION

- for signal transmission and energy supply(no new bus system!)

2) BACKWARD COMPATIBLE

- for switching PNP or push-pull sensors

3) OPERATION MODES

- Standard-I/O mode(SIO), IO-Link mode

4) 3 COMMUNICATION SPEEDS

- 4,800(COM 1), 38,400(COM 2), optional 230,400 baud(COM 3)

5) UNSHIELDED STANDARD INDUSTRY CABLE

- and standard M12, M8 or M5 plug connectors

6) 2 TRANSMISSION TYPES

- Process data(e.g. switch signals or distance values) is transmitted cyclically, service data(e.g. parameters) is transmitted cyclically

2. Benefits of IO-Link

Digital Communication: It enables bi-directional communication over a simple three-wire connection (typically power, ground, and signal).

Parameterization and Diagnostics

IO-Link allows for detailed parameterization of sensors and actuators, as well as the retrieval of diagnostic data such as device status and health information.

Integration with Industrial Ethernet

IO-Link can be seamlessly integrated with higher-level communication protocols such as PROFINET, EtherNet/IP, or Modbus TCP/IP, enabling connectivity in modern industrial networks.

Enhanced Flexibility and Efficiency

It supports the integration of smart sensors and actuators into the Industrial Internet of Things (IoT) ecosystem, facilitating data-driven insights and predictive maintenance.

3. USE IO-Link & Application Report

1) Simplified Wiring and Installation

- In a traditional automation setup, sensors and actuators may require multiple cables for power and data transmission, leading to complex wiring schemes. With IO-Link, a single standard 3- or 4-wire cable can transmit both power and data, simplifying installation. This reduces installation time and costs and decreases the chances of wiring errors. For instance, connecting a proximity sensor to a PLC via IO-Link can be done using just one cable instead of separate ones for signal and power.

2) Improved Data Availability and Diagnostics

- IO-Link devices provide extensive diagnostic information in addition to standard process data. For example, a pressure sensor with IO-Link connectivity not only sends real-time pressure readings but also provides additional data such as sensor temperature, operating hours, and error messages. This allows maintenance teams to perform predictive maintenance by analyzing this diagnostic data to foresee potential failures and intervene before breakdowns occur, minimizing downtime.

3) Cost Reduction in Components and Maintenance

- Traditional sensors and actuators with integrated intelligence (such as signal processing) are usually more expensive. IO-Link enables the use of simpler, cost-effective devices by moving the intelligence to the IO-Link master. Additionally, because IO-Link supports condition monitoring and predictive maintenance, equipment failures can be anticipated and resolved before causing extensive damage, reducing maintenance costs. For example, using IO-Link-enabled vibration sensors on motors can provide early warnings of potential failures, preventing costly repairs and downtime.

4) Easy Integration with Digitalization and Industry 4.0

- IO-Link provides a standardized way of transmitting data that can easily be integrated with higher-level systems, such as Manufacturing Execution Systems (MES) or cloud-based analytics platforms. This is critical for Industry 4.0 initiatives, where data from various devices is aggregated and analyzed to optimize manufacturing processes. For instance, temperature data from IO-Link sensors across different parts of a factory can be collected in real-time and analyzed to optimize energy usage, enhance product quality, and increase overall operational efficiency.

Product Specification for IO-Link Product

Model number		QDML-IOL	QDT50L-IOL	QDB50-IOL

QDML-IOL

PRODUCT SPECIFICATION

QDML-IOL

Materials Housing-Al, Lens-PU

Ambient operating temperature 0°C to +50°C

Protection rating IP67

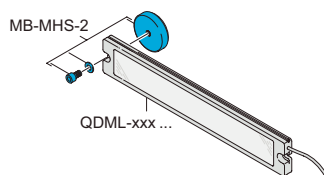

QDML-IOL

- State-of-the-art multi colored LED Work Light with IO-Link technology
- Signaling device optimized for Industry 4.0
- Plug & play technology applied for immediate operation when mounted on an international standard M12 connector
- 8 types of preset color modes and user-defined settings
- Convenient environment setting possible via IO-Link
- Available in a variety of lengths from 125mm to 900mm, allowing customers can choose an appropriate options
- High protection rating of IP67 allows use in various environments
- Ambient operating temperature: 0°C to +50°C

Qlight Catalog Introduction

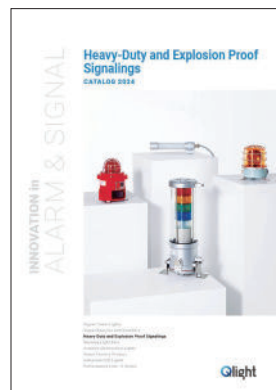

Qlight produces a wide variety of product categories which offers the customer the ability to select the suitable device for their application needs and environments. There are signal tower lights, Signal Beacons and Sounders, Heavy-Duty and Explosion Proof Signalings, Warning light bars, Aviation Obstruction Lights, Smart Factory Product, Industrial LED lights, Performance Line - E Series, and IO-Link Product.
